

PRESS RELEASE

THE FIGHTER COLLECTION AND EAGLE DYNAMICS TO RELEASE *LOCK ON: FLAMING CLIFFS 2.0 UPGRADE*

DUXFORD, UK, November 17, 2009 – The Fighter Collection and Eagle Dynamics will release *Lock On: Flaming Cliffs 2.0* in early 2010. This will be an upgrade to the unofficial *Lock On: Flaming Cliffs* add-on. *Lock On: Flaming Cliffs 2.0* will feature all the flyable aircraft of *Lock On: Flaming Cliffs* and include several fan-requested upgrades to aircraft, sensor, and weapon systems. *Lock On: Flaming Cliffs* combines a large stable of modern U.S. and Russian aircraft to fly over Russia and Georgia with game play for both casual and hardcore flight simulation enthusiasts.

Lock On: Flaming Cliffs 2.0 will feature the same world environment and game functionality as the *Digital Combat Simulation (DCS)* series and will be online compatible with the Ka-50 attack helicopter simulation *DCS: Black Shark* www.digitalcombatsimulator.com. *Lock On: Flaming Cliffs 2.0* will allow *Lock On* pilots and *Black Shark* pilots to now fly online together in both cooperative and head-to-head online play.

The *Lock On: Flaming Cliffs 2.0* upgrade for owners of *Lock On: Flaming Cliffs 1.12* will be available for sale as a download from the Eagle Dynamics *Lock On* web site for \$14.99 USD. <http://lockon.co.uk/>. The upgrade will first be released in English and Russian with French, German, and Spanish versions to follow.

By using the DCS environment, *Lock On: Flaming Cliffs 2.0* users will have improved terrain, mission editor, AI flight models, 3D objects, artificial intelligence (AI), and multiplayer. The aircraft of *Lock On: Flaming Cliffs 2.0* will include:

- Su-25 (new 3D model)
- Su-25T
- A-10A
- Su-27
- Su-33
- MiG-29A
- MiG-29C
- F-15C

Several new missions and campaigns will be included in *Lock On: Flaming Cliffs 2.0*.

About The Fighter Collection

The Fighter Collection, as well as developing software for the entertainment and serious game markets, also operates, rebuilds and maintains Europe's largest

collection of airworthy WWII fighters and is based at Duxford Airfield, in the UK.
